At the beginning of each fiscal year, the Board will determine the average quarterly income for the prior year. The Alabama Department of Environmental Management will maintain a list of sites participating in the Alabama Drycleaning Trust Fund and will prioritize those sites based on potential risk to human health and the environment.

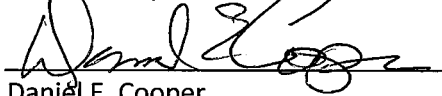

1. After the deadline date established for each Board meeting, the Board Engineer shall prepare a list of sites that have requested authorization for funding to perform investigation or remediation work and list those sites in order of priorities established by ADEM.
2. The Board will only authorize expenditures not greater than 75% of the average quarterly income from the prior year.
3. Authorizations will be based first on priority ranking and second on date of receipt at the Board office.
4. The Board has the authority to modify this policy on a case-by-case basis.
